

An example of a typical Physiotherapy course advertised for educational reasons to be delivered in a gym environment for rehabilitation.

It indicates the course is approved for professional development by the APA and ESSA.

Dear Fellow Physiotherapists...

Would you like to improve your functional strength & conditioning knowledge and exercise prescription skills?

Are you confident in the design, programming and delivery of the most effective full-body strength and rehabilitation exercise programs, for both home-based and gym-based training?

15 hrs PD

15 CPD pts

13 CECs
