

2 Billion dollars invested in money making ventures.

(HF) has huge resources and puts profits over patients over practitioners. Stop and think about it, a health fund into investments like Tobacco and Fossil Fuels.

They are abusing their power for profit and running small health businesses like mine out of business.

█ has become the first **Australian private health fund** to divest from fossil fuels, having decided that the industry harms the health and wellbeing of its members, pulling about \$20m out of fossil fuel companies in Australia and overseas.

In a letter to the campaign group █ dated 15 December 2016, █ said it would be divesting from **fossil fuels** on the same ground it used for pulling out of the **tobacco industry**.

In █ latest annual report, it said it had **\$2bn invested** in a diversified portfolio.
